

***For my Love***

***Jasper Japink, 2004***

I'm getting sick of being lonely.  
Loneliness has always been my oldest friend.  
I didn't care for feelings of others.  
But I know this time it's going to change.

Cause when we dance that's all over.  
The way we dance I never danced before.  
I feel you next to me and I know that it is right.  
And I won't be telling you lies we later got to fight.

I am not very good with relations.  
I'm getting bored so fast.  
I never dared to tell you.  
Afraid you wouldn't be with me tonight.

Cause when we dance that's all over.  
The way we dance I never danced before.  
I feel you next to me and I know that it is right.  
And I won't be telling you lies we later got to fight.

*Solo*

Cause when we dance that's all over.  
The way we dance I never danced before.  
I feel you next to me and I know that it is right.  
And I won't be telling you lies we later got to fight.

Cause when we dance that's all over.  
The way we dance I never danced before.  
I feel you next to me and I know that it is right.  
And I won't be telling you lies we later got to fight.

Let's dance, let's dance, let's dance tonight.  
Let's dance, let's dance, let's dance tonight.
